Website: www.trainingforyou.net

Session 1: 07:30 - 08:30 Personal Protective Equipment (PPE) Who needs that stuff anyway? 2nd half - First aid primer! 1st part of session will cover PPE in our jobs and what's new out there with some examples of what happens if you don't wear your PPE! 2nd half a quick primer on First aid.

Session 2: 08:45 –09:45 Microbiology 101, presented by Karen Parks we will take a look into the microscopic bugs in water and wastewater the good, the bad and the ugly!

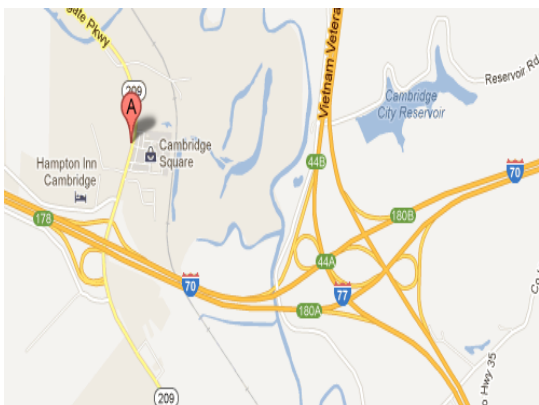

Session 3: 10:00 - 11:00 Small package plants water & wastewater this session will cover operations of small water and wastewater package plants; designs, monitoring permits, O&M, distribution and collections systems.

Session 4: 11:00—12:00 Round table plant problems: This session will consist of open discussions of problems we encounter everyday on our jobs as water & wastewater operators. Tim has some of his own to get things started, a good way to maybe get some answers to that problem that's been bugging you.

Lunch 12:00—12:45

Session 5 12:45 - 1:45 Control circuits 101 (Hands on) this session will cover the basics of control circuits after a short intro of control circuits, the attendees will actually build a working control circuit using common electrical parts they will encounter in the start/stop control circuits of equipment.

Session 6: 2:00 – 3:00 - Subject in progress—check website often for subject
